

SLATWASHER

Slat washer developed a slat washer to realize maximum hygiene. The slat washer can wash most types of plastic and wooden slats perfectly, contributing to a cleaner and hygienic house. The slats are cleaned in a horizontal position. The dirty water falls through the slat, avoiding extra contact with the dirty water. The four nozzles in the slat washer are placed at the bottom and top at 45 degrees, hitting every spot of the slat.

Advantages

- Made of high quality stainless steel.
- Almost every slat (plastic and wooden) can be cleaned in the slat washer.
- Effective and thorough cleaning: 4 nozzles are placed at a 45 degrees angle, hitting every spot at once from both the top and from the bottom.
- The slats are cleaned in a horizontal position. The dirty water falls through the slat, avoiding extra contact with the dirty water.
- Mobile construction, easy to move to another location.
- Long lifespan through the use of durable materials.
- Easy slat washing with a shorter cleaning time.

Options

- High pressure cleaner.
- U-profiles for moving of the slat washer with a fork lift.
- Different side guides possible for other slat types.
